## Experience

### Freelancer

*Self-Employed*

**Feb 2024 – Present**

*Remote*

- Designed and delivered UI/UX solutions for clients across travel, education and ticketing industries.
- Collaborated with other freelancers including developers, illustrators, and designers to execute complete product solutions.
- Led user research, wireframing, and high-fidelity prototyping using Figma, Figjam, and AdobeXD.

### Tuki Soft Pvt.Ltd.

*UI/UX Designer*

**Aug 2023 – Feb 2024**

*Pokhara, Nepal*

- Designed UI/UX for variety of web and mobile products focusing on usability and visual consistency.
- Created user flows, wireframes, and interactive prototypes for feature-rich interfaces.
- Created graphics for marketing campaigns, including banners, social media visuals, and promotional content.
- Supported implementation by working closely with developers to align designs with technical feasibility.

### Websoft Technology Nepal Pvt. Ltd.

*Web Developer Intern*

**Apr 2023 – July 2023**

*Pokhara, Nepal*

- Contributed to the development of a web-based application using PHP Laravel
- Gained hands-on experience with Blade templating, Eloquent ORM, and basic API integration.

## Projects

### Kaleidoscopic Nepal | *Figma, NextJS, Figjam*

[view](#)

*A platform for organizing spiritual and adventure tours.*

- Participated in project meetings to understand user needs and align on feature priorities.
- Designed responsive UI for browsing destinations, selecting packages, and completing bookings.
- Built user flows and high-fidelity prototypes.
- Collaborated with developers on integrating UI assets, refining data entry flows, and improving iconography.

### Ticket Fam | *Figma, Figjam, AdobeXD, Illustrator, NextJS*

[view](#)

*Ticketing platform offering a seamless solution for managing events, selling tickets, and engaging.*

- Designed user-friendly mobile and web interfaces for browsing, filtering, and purchasing event tickets.
- Created a design system for reusable components (e.g. logo variations, seatings, ticket UI, icons).
- Designed a dedicated QR code scanner app for ticket validation at venues.
- Collaborated with developers to hand off design specs and interaction guides.

### Maatri | *Figma, Figjam, Illustrator*

[view](#)

*LMS designed specifically for Nepal's classrooms.*

- Designed high-fidelity mockups and prototypes using tools like Figma.
- Conducted meetings and coordinated directly with client representatives to gather requirements and align project goals.

### Cake Lake Bakery | *Figma, Figjam, Illustrator*

[view](#)

*An online bakery ordering platform that offers real-time product availability and delivery scheduling.*

- Designed UI elements for menu browsing, product customization, and cart.
- Created an ordering flow optimized for quick checkouts and custom cake orders.
